

Subject to Change based on Venue & CDE Regulations
COVID 19 SAFETY PLAN REQUIREMENTS

- You must be aware and follow the most up to date guidelines established by the **CDC**, as well as the state and local health departments when attending a CDE event.
- CDE will require all staff, judges, and subcontractors to be screened and have a temperature check to be on site before, during, or after the event. All who fail a temperature check or show signs of not feeling well and healthy will not be permitted to attend.
- CDE will use athlete waivers, registration documents, and registered coaches as our contact plan **contact tracing**, should it be necessary. Due to this all coaches passes must be pre-paid for 72 hours prior to the event. A CDE Roster must be completed for each program for each participant, coach, gym director/owner, in attendance at the event.
- **Masks** will be worn by all Spectators, CDE Staff, Judges, and Coaches in attendance at the event. Athletes must wear masks when not competing or engaging in an active warm-up. Mask worn by athletes competing and practicing will be left up to the discretion of each gym owner/program director. Any program choosing to wear a mask during performance will not be penalized.
- A **6-foot physical distancing** policy will be in place serving as reminders where there will be gatherings of people.
- An established route for “entrance only” and “exit only” will be in place to allow for a **“one way” path** for attendees/participants. We ask that all allow enough time to get from point A to point B due to this.
- The event schedule will allow for **planned intervals of enhanced cleaning**, disinfecting, re-sanitizing, and fogging rooms, public areas and areas of usage.
- Venues will have dedicated employees assigned as part of a **“COVID Response Team”** that are policing the building to identify any risks and to address any issues.
- **Hand sanitizer stations** at the building entrances and strategic locations throughout the venue.

- **Award Ceremonies** will be altered to follow social distancing rules. This may be a virtual award ceremony where placements are announced virtually and awards are shipped. When possible, we will allow for one to two coaches per team to stay for the awards ceremony to pick up awards and placements.
- Scheduling of Teams will depend on the specific venue, state officials, and current CDC guidelines for that specific events. An example of this may be all Level 1 teams (Break), All Level 2 teams (Break). Breaks will be incorporated throughout to allow for sanitation and proper social distances guidelines to be followed.
